

ASPEN™

comfort
and style

ASPEN™

Here is a chair that 'fits' at the beginning of your work day, and also at the end of the work day when you need it most.

Aspen is a fully-featured task chair that delivers superior ergonomics, affordability and contemporary styling. What makes Aspen unique is the form fitting back profile, the result of years of extensive testing to determine the optimum support for the widest possible range of users and body types. The back can also be easily and quickly adjusted in height to provide full contact with the lumbar. Aspen is a chair that not only 'fits' at the beginning of your work day, but also at the end of the work day when you need it most.

The multi-tilter mechanism offers independent seat and back angle adjustments to ensure that individual comfort and preferences can be met. Aspen also breaks new ground in 'universal' design with adjustment levers that feature easy to understand symbols as well as braille for sight impaired users. The Executive back models feature a padded headrest that can be fully adjusted independent of the back settings. All of these features come together to provide years of comfort and support.

three back heights

MEDIUM, HIGH AND EXECUTIVE

Cover, left to right: 2850-3 Executive Back adjustable headrest in Allante Medium Beige (A27E) and 2851-3 High Back height adjustable back in Maharam Venn Thunder (VN52).

Aspen offers a multitude of functional features

Aspen is a fully-featured task chair that delivers superior ergonomics, affordability and contemporary styling. What makes Aspen unique is the form fitting back profile, the result of years of extensive testing to determine the optimum support for the widest possible range of users and body types. The back can also be easily and quickly adjusted in height to provide full contact with the lumbar. Aspen is a chair that not only 'fits' at the beginning of your work day, but also at the end of the work day when you need it most.

The multi-tilter mechanism offers independent seat and back angle adjustments to ensure that individual comfort and preferences can be met. Aspen also breaks new ground in 'universal' design with adjustment levers that feature easy to understand symbols as well as braille for sight impaired users. The Executive back models feature a padded headrest that can be fully adjusted independent of the back settings. All of these features come together to provide years of comfort and support.

Armcap slides Arms feature a sliding armcap to provide support for all body sizes and proportions.

Height adjustable spring balanced arms feature a generously proportioned and comfortable urethane armcap.

Width adjustable Arms adjust in and out to accommodate a wide range of users and working styles.

Back height adjustment enables the user to position the lumbar support to their personal preference.

A height adjustable headrest is standard on the Executive back models.

Seat Depth is adjustable to match users leg length and provide additional comfort.

Optional Polished Aluminum Base and Chrome Arm Stem (B5).

Standard Black Nylon Base and Black Arm Stem (BLK).

ASPEN™

The Global Accord seating series is the perfect compliment for Aspen in meeting rooms, board rooms and executive applications. Contact your Global representative for more information or visit us online at GlobalTotalOffice.com.

Global chairs are tested to meet or exceed ANSI/BIFMA seating standards. These test procedures evaluate seating for function, safety, durability, and structural adequacy. Your assurance of a quality product. As a result, all Global products proudly carry a Limited Lifetime Warranty.
