# FLEXAR™

3612-2 Flexar High Back Synchro Knee-Tilter

3612-2 Flexar High Back Synchro Knee-Tilter

**Sophisticated arm pivots** at three points to allow smooth, synchronized seat and back movement

Flexar offers an executive style loop arm that pivots in three spots as the chair tilts. This new articulating arm allows the chair back to recline more rapidly than the seat, so that the operator's feet are not lifted off the floor when the chair is tilted. Reduced pressure behind the thighs increases blood flow to the lower extremities making Flexar exceptionally comfortable during hours of use.

## DESCRIPTION
